Don’t dwindle down the path of the Dark Side, no matter how tempting or easy it may seem to sell yourself out — side the those of the light and do things the right way.

Sluggish metabolic rate- caused by numerous factors including under eating for an extended period of time, low anabolic hormone levels, genetics and many others.

CNS depressants like Valium and Xanax work to slow the individual’s brain function, thereby calming their anxiety.

During the beginning of your cycle (your period and the days following) your temp is low.

AO is applied by a rapid report and/or and/or vs
